

Housing Supply Overview

This research report is provided by the Utah Association of REALTORS® and includes data from UtahRealEstate.com, Iron County MLS, Washington County MLS and Park City MLS

August 2026

Pending home sales fell 2.2% year-over-year in July, declining to the lowest level since January 2026, according to the National Association of REALTORS®. Contract signings remain about 30% below their pre-pandemic 2019 level even as payroll employment is 5% above, pointing to sizable pent-up demand. Elevated mortgage rates and record-high home prices continued to weigh on buyer activity, with signings down across all four major U.S. regions compared to a year ago. For the 12-month period spanning September 2025 through August 2026, Closed Sales in the Utah Association of REALTORS® region increased 1.5 percent overall. The price range with the largest closed sales gain was the \$750,000 to \$999,999 range, where sales were up 7.9 percent.

The overall Median Sales Price increased 1.5 percent to \$525,000. The property type with the largest gain was the Single-Family segment, where prices rose 0.9 percent to \$575,000. The price range that tended to sell the quickest was the \$250,000 to \$499,999 range at 64 days. The price range that tended to sell the slowest was the \$249,999 and Below range at 88 days.

Market-wide, inventory levels went up 2.4 percent. The property type with the largest gain was the Townhouse-Condo segment, where the number of properties for sale rose 10.3 percent. That amounts to 4.5 months of inventory for Single-Family and 5.1 months of inventory for Townhouse-Condo.
